

Information on private genealogical research

Where can I find hints?

The "Ortsfamilienbuch Durmersheim" by Martin Burkart is the standard work for long-established Durmersheim families. Martin Burkart has digitized the old church records of the Catholic parish St. Dionysius and made them publicly accessible.

In this work births, marriages and deaths are noted, which took place up to approx. 1900 in Durmersheim and were recorded ecclesiastically.

In addition, research in various archives is available for private investigations:

- Parish office of the place of birth
- registry office of the place of birth (Since the foundation of the German Reich in 1871, the lists of persons at the municipalities.)
- Archives of the Mormons
- local history associations, local history museums
- local genealogists and ancestor researchers
- General State Archives (GLA), where you can find documents about emigrations in particular
